

Flag 0 – Create Your Feature Branch

Objective: Create a feature branch before modifying your application. Name the branch feature/widgets

Screenshot:

```
MINGW64:/c/Users/oraiz/Mynewflutterapp/IT314AB_ORAIZ

oraiz@Mooney MINGW64 ~/Mynewflutterapp/IT314AB_ORAIZ (main)
$ git status
On branch main
Your branch is up to date with 'origin/main'.

nothing to commit, working tree clean

oraiz@Mooney MINGW64 ~/Mynewflutterapp/IT314AB_ORAIZ (main)
$ git checkout -b feature/widget
Switched to a new branch 'feature/widget'

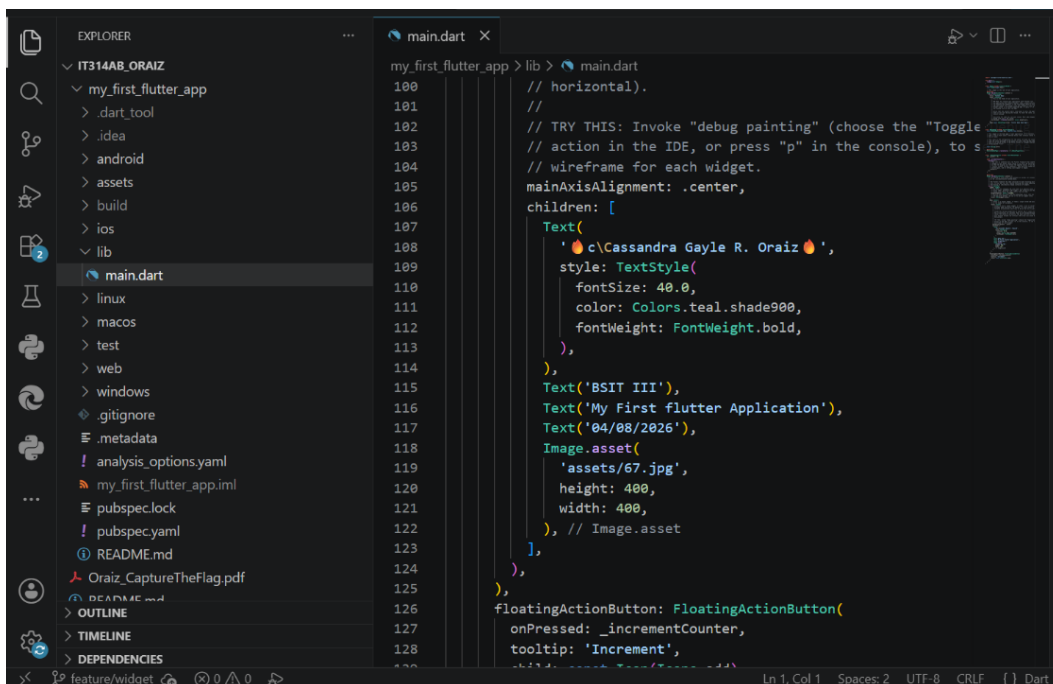

oraiz@Mooney MINGW64 ~/Mynewflutterapp/IT314AB_ORAIZ (feature/widget)
$ code .

oraiz@Mooney MINGW64 ~/Mynewflutterapp/IT314AB_ORAIZ (feature/widget)
$ git checkout -b feature/widgets
Switched to a new branch 'feature/widgets'

oraiz@Mooney MINGW64 ~/Mynewflutterapp/IT314AB_ORAIZ (feature/widgets)
$ |
```

Flag 1 – Break It Apart

Objective: Separate your profile information into individual Text widgets.

Flag 2 – Stack the Information

Objective: Arrange your individual Text widgets vertically.

```
my_first_flutter_app > lib > main.dart > _MyHomePageState > build
56 class _MyHomePageState extends State<MyHomePage> {
71   Widget build(BuildContext context) {
87     // AppBar
88     body: Card(
89       // Center is a layout widget. It takes a single child and
90       // in the middle of the parent.
91       child: Column(
92         mainAxisAlignment: .center,
93         children: [
94           Text(
95             'cCassandra Gayle R. Oraiz 🔥',
96             style: TextStyle(
97               fontSize: 40.0,
98               color: Colors.teal.shade900,
99               fontWeight: FontWeight.bold,
100             ), // TextStyle
101           ), // Text
102           Text('BSIT III'),
103           Text('My First flutter Application'),
104           Text('August 11 2026'),
105           Image.asset(
106             'assets/67.jpg',
107             height: 400,
108             width: 400,
109           ), // Image.asset // Image.asset
110         ],
111       ), // Column
112     ), // Card
113     floatingActionButton: FloatingActionButton(
```

Flag 3 – Add Another Element

Objective: Add another individual widget to your Column.

Add something that belongs to your profile.

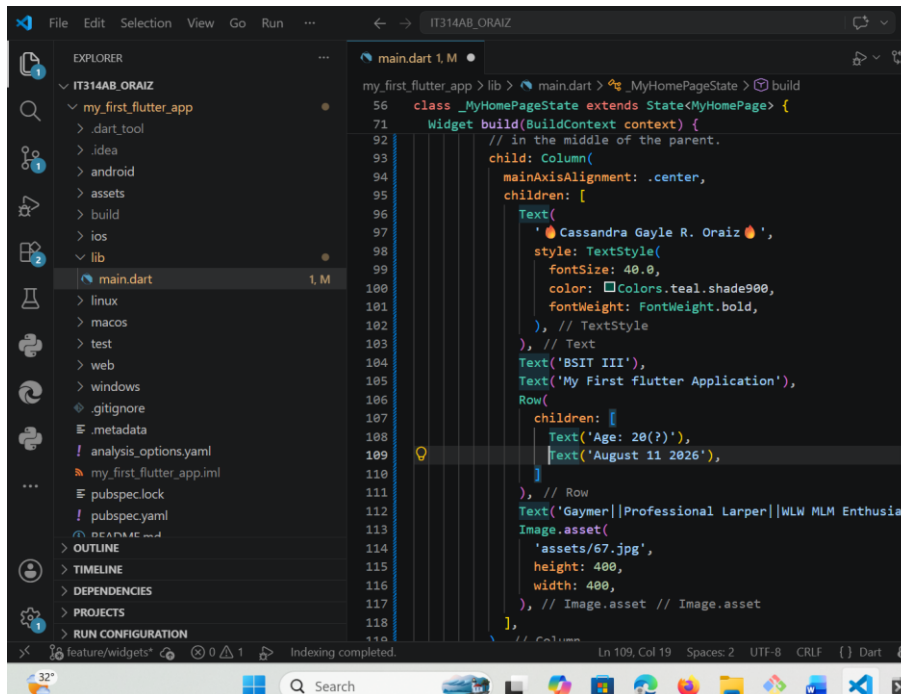

```
my_first_flutter_app > lib > main.dart > _MyHomePageState > build
56 _MyHomePageState extends State<MyHomePage> {
71   et build(BuildContext context) {
90     elevation: 8,
91     // Center is a layout widget. It takes a single child and posi
92     // in the middle of the parent.
93     child: Column(
94       mainAxisAlignment: .center,
95       children: [
96         Text(
97           'Cassandra Gayle R. Oraiz 🔥',
98           style: TextStyle(
99             fontSize: 40.0,
100             color: Colors.teal.shade900,
101             fontWeight: FontWeight.bold,
102           ), // TextStyle
103         ), // Text
104         Text('BSIT III'),
105         Text('My First flutter Application'),
106         Text('August 11 2026'),
107         Text('Gamer||Professional Larper||WLW MLM Enthusiast'),
108         Image.asset(
109           'assets/67.jpg',
110           height: 400,
111           width: 400,
112         ), // Image.asset // Image.asset
113       ],
114     ), // Column
115   ), // Card
116 }, // Card
```

Flag 4 – Put Two Things Side-by-Side

Objective: Discover the Row widget.

Create a new section containing **two pieces of information beside each other**.

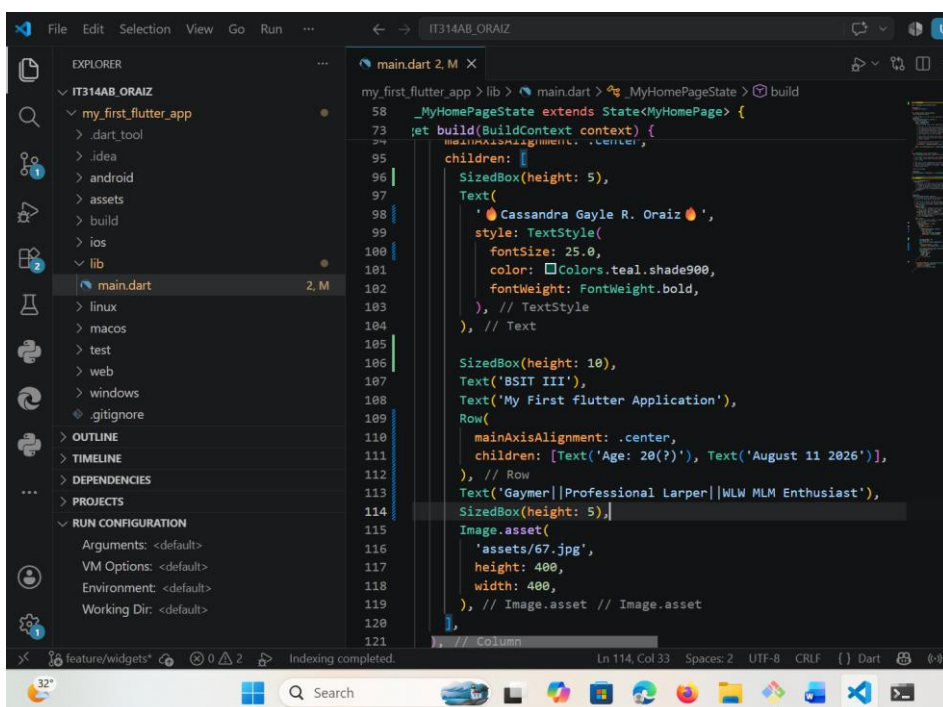

```
my_first_flutter_app > lib > main.dart > _MyHomePageState > build
56 class _MyHomePageState extends State<MyHomePage> {
71   Widget build(BuildContext context) {
92     // in the middle of the parent.
93     child: Column(
94       mainAxisAlignment: .center,
95       children: [
96         Text(
97           'Cassandra Gayle R. Oraiz 🍌',
98           style: TextStyle(
99             fontSize: 40.0,
100            color: Colors.teal.shade900,
101            fontWeight: FontWeight.bold,
102          ), // TextStyle
103        ), // Text
104        Text('BSIT III'),
105        Text('My First flutter Application'),
106        Row(
107          children: [
108            Text('Age: 20(?)'),
109            Text('August 11 2026'),
110          ],
111        ), // Row
112        Text('Gaymer||Professional Larper||WLW MLM Enthusiast'),
113        Image.asset(
114          'assets/67.jpg',
115          height: 400,
116          width: 400,
117        ), // Image.asset // Image.asset
118      ],
119    ), // Column
120  }
```

Flag 5 – Give It Some Space

Objective: Improve the spacing between your widgets.

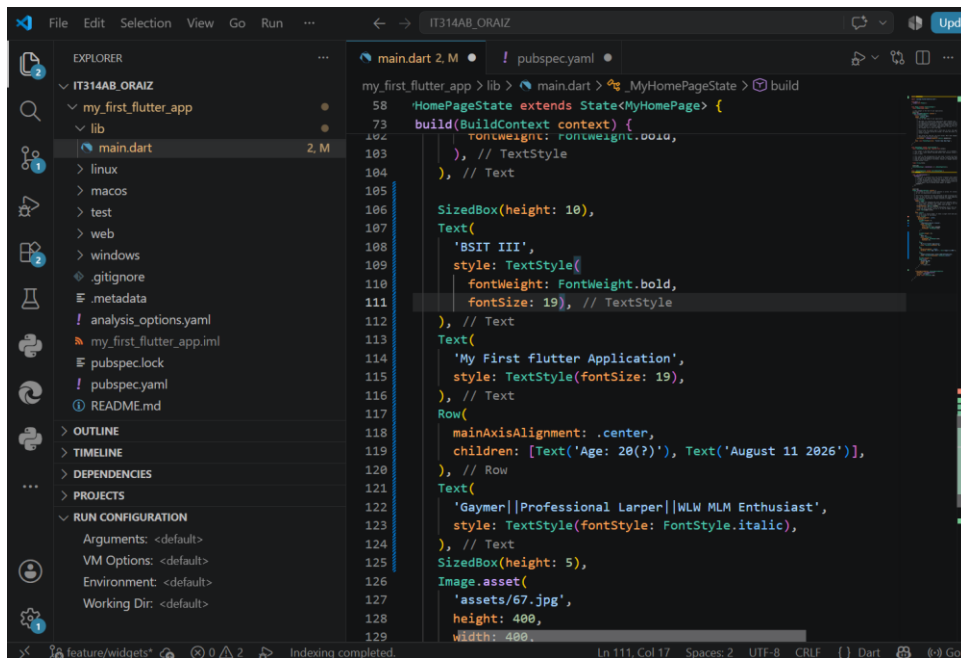

```
my_first_flutter_app > lib > main.dart > _MyHomePageState > build
58 _MyHomePageState extends State<MyHomePage> {
73   Widget build(BuildContext context) {
95     child: Column(
96       mainAxisAlignment: .center,
97       children: [
98         SizedBox(height: 5),
99         Text(
100           'Cassandra Gayle R. Oraiz 🍌',
101           style: TextStyle(
102             fontSize: 25.0,
103             color: Colors.teal.shade900,
104             fontWeight: FontWeight.bold,
105           ), // TextStyle
106         ), // Text
107         SizedBox(height: 10),
108         Text('BSIT III'),
109         Text('My First flutter Application'),
110         Row(
111           mainAxisAlignment: .center,
112           children: [Text('Age: 20(?)', Text('August 11 2026'))],
113         ), // Row
114         Text('Gaymer||Professional Larper||WLW MLM Enthusiast'),
115         SizedBox(height: 5),
116         Image.asset(
117           'assets/67.jpg',
118           height: 400,
119           width: 400,
120         ), // Image.asset // Image.asset
121       ],
122     ), // Column
123   }
```

Flag 6 – Make It Look Better

Objective: Apply styling to your individual widgets.

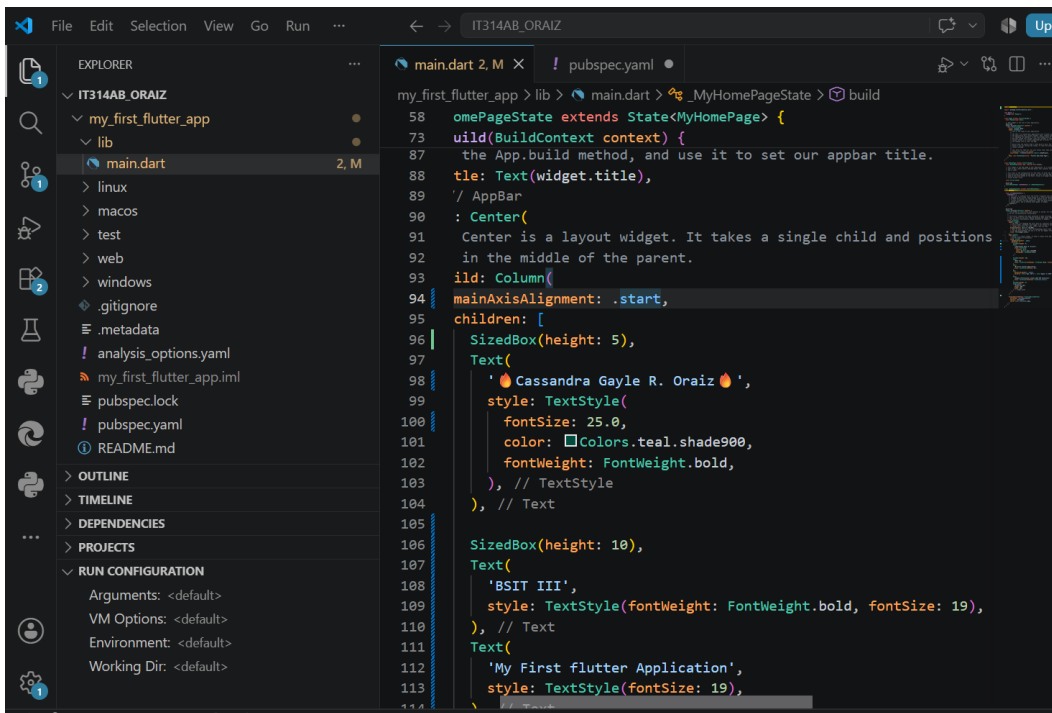

```
58 'HomePageState extends State<MyHomePage> {'
73 build(BuildContext context) {
102   fontweight: FontWeight.bold,
103   ), // TextStyle
104   ), // Text
105
106   SizedBox(height: 10),
107   Text(
108     'BSIT III',
109     style: TextStyle(
110       fontWeight: FontWeight.bold,
111       fontSize: 19), // TextStyle
112   ), // Text
113   Text(
114     'My First flutter Application',
115     style: TextStyle(fontSize: 19),
116   ), // Text
117   Row(
118     mainAxisAlignment: .center,
119     children: [Text('Age: 20(?)',), Text('August 11 2026')],
120   ), // Row
121   Text(
122     'Gaymer||Professional Larper||WLW MLM Enthusiast',
123     style: TextStyle(fontStyle: FontStyle.italic),
124   ), // Text
125   SizedBox(height: 5),
126   Image.asset(
127     'assets/67.jpg',
128     height: 400,
129     width: 400,
```

Flag 7 – Improve the Layout

Objective: Control the alignment of your widgets.

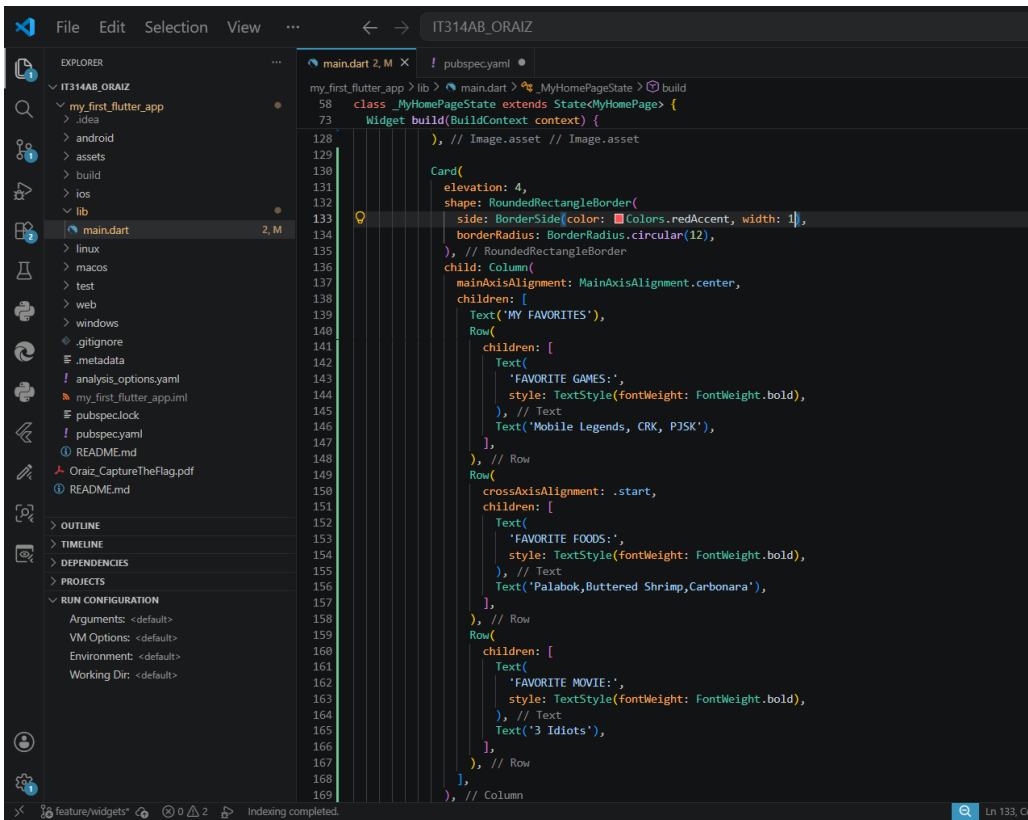

```
58 omePageState extends State<MyHomePage> {
73 uild(BuildContext context) {
87   the App.build method, and use it to set our appbar title.
88 tle: Text(widget.title),
89   / AppBar
90   : Center(
91     Center is a layout widget. It takes a single child and positions
92     in the middle of the parent.
93   ild: Column(
94     mainAxisAlignment: .start,
95     children: [
96       SizedBox(height: 5),
97       Text(
98         'Cassandra Gayle R. Oraiz',
99         style: TextStyle(
100           fontSize: 25.0,
101           color: Colors.teal.shade900,
102           fontWeight: FontWeight.bold,
103         ), // TextStyle
104       ), // Text
105
106       SizedBox(height: 10),
107       Text(
108         'BSIT III',
109         style: TextStyle(fontWeight: FontWeight.bold, fontSize: 19),
110       ), // Text
111       Text(
112         'My First flutter Application',
113         style: TextStyle(fontSize: 19),
114       ), // Text
```

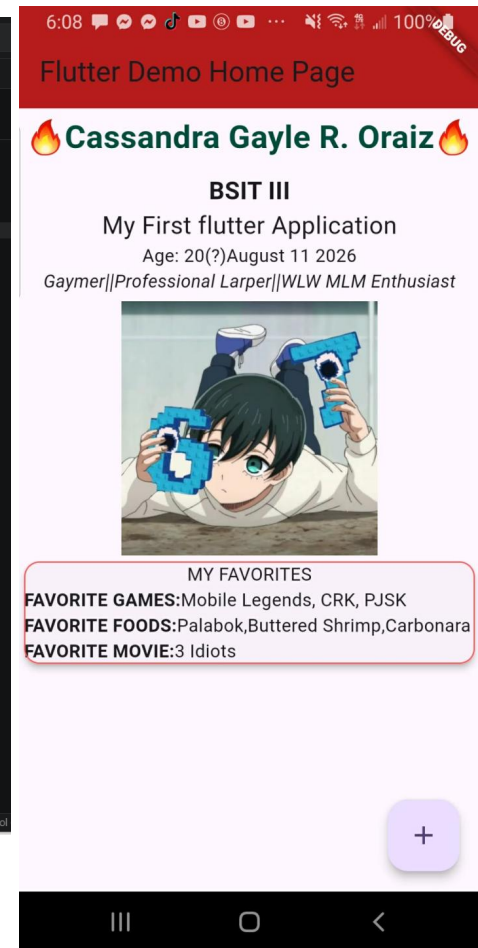

Flag 8 – Create a Second Card

Objective: Apply what you learned to create another section.

```
58 class _MyHomePageState extends State<MyHomePage> {
73   Widget build(BuildContext context) {
128   ), // Image.asset // Image.asset
129
130   Card(
131     elevation: 4,
132     shape: RoundedRectangleBorder(
133       side: BorderSide(color: Colors.redAccent, width: 1),
134       borderRadius: BorderRadius.circular(12),
135     ), // RoundedRectangleBorder
136     child: Column(
137       mainAxisAlignment: MainAxisAlignment.center,
138       children: [
139         Text('MY FAVORITES'),
140         Row(
141           children: [
142             Text(
143               'FAVORITE GAMES:',
144               style: TextStyle(fontWeight: FontWeight.bold),
145             ), // Text
146             Text('Mobile Legends, CRK, PJSK'),
147           ],
148         ), // Row
149         Row(
150           crossAxisAlignment: .start,
151           children: [
152             Text(
153               'FAVORITE FOODS:',
154               style: TextStyle(fontWeight: FontWeight.bold),
155             ), // Text
156             Text('Palabok, Buttered Shrimp, Carbonara'),
157           ],
158         ), // Row
159         Row(
160           children: [
161             Text(
162               'FAVORITE MOVIE:',
163               style: TextStyle(fontWeight: FontWeight.bold),
164             ), // Text
165             Text('3 Idiots'),
166           ],
167         ), // Row
168       ],
169     ), // Column
```

Flag 9 – Stack the Cards

Objective: Arrange your two cards vertically.

Flag 10 – Widget Discovery

Objective: Discover a Flutter widget independently.

```
130         ], // Image.asset
131         Image.asset('assets/67.jpg', height: 200, width: 200),
132       ], // Image.asset
133     ), // Column
134   ), // Card
135
136   Divider(thickness: 2,
137   ), // Divider
138
139   Card(
140     elevation: 4,
141     shape: RoundedRectangleBorder(
142       side: BorderSide(color: Colors.redAccent, width: 1),
143       borderRadius: BorderRadius.circular(12),
144     ), // RoundedRectangleBorder
145     child: Column(
```

Flag 11 – Real Phone Test 📱

Objective: Run your completed application on a **physical** Android phone.
